

BELLABEAT FITNESS

Smart Device Usage Analysis

SQL Analysis Report

Period: April 12 - May 12, 2016 | Users: 7

Section 1 - Dataset Overview

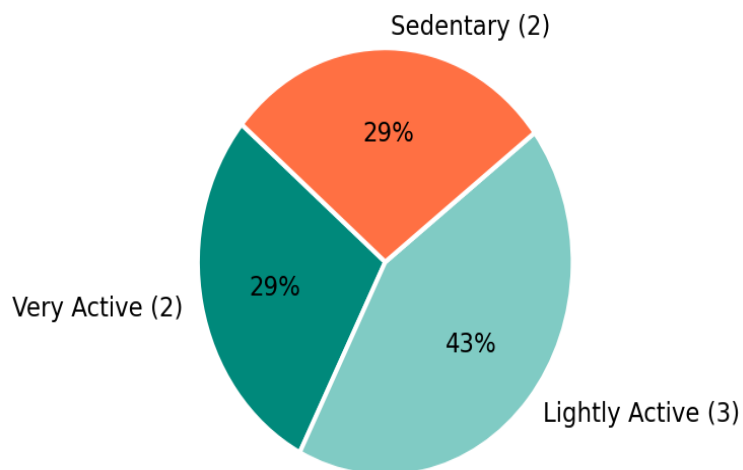

Metric	Value	Benchmark	Status
Total Users	7	--	--
Avg Daily Steps	6,538	10,000 steps	Below Target
Avg Daily Calories	1,992 kcal	2,000 kcal	Near Target
Avg Sedentary Minutes	1,083 min (18 hrs)	< 480 min	Critical
Avg Very Active Minutes	14 min	30 min	Below Target
Avg Lightly Active Minutes	175 min	--	--

Key Insight: Users average only 14 minutes of intense activity per day vs the recommended 30. Sedentary time of 18 hours/day is a critical finding that should shape Bellabeat's notification strategy.

Section 2 - User Activity Classification

Activity Level	Users	% of Total	Step Threshold
Very Active	2	29%	>= 10,000 steps
Fairly Active	0	0%	7,500-9,999 steps
Lightly Active	3	43%	5,000-7,499 steps
Sedentary	2	28%	< 5,000 steps

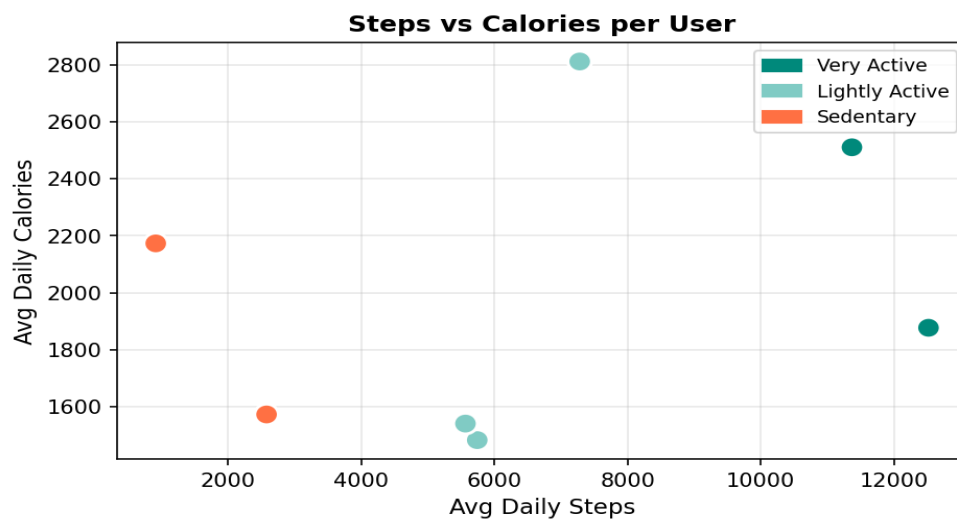

User Distribution by Activity Level

Key Insight: 71% of users are lightly active or sedentary. This majority is Bellabeat's biggest marketing opportunity - target them with step challenges and activity reminders.

Section 3 - Steps vs Calories per User

User ID	Avg Steps	Avg Calories	Activity Level
1503960366	12,521	1,877 kcal	Very Active
2022484408	11,371	2,510 kcal	Very Active
1644430081	7,283	2,811 kcal	Lightly Active
1624580081	5,744	1,483 kcal	Lightly Active
2026352035	5,567	1,541 kcal	Lightly Active
1844505072	2,580	1,573 kcal	Sedentary
1927972279	916	2,173 kcal	Sedentary

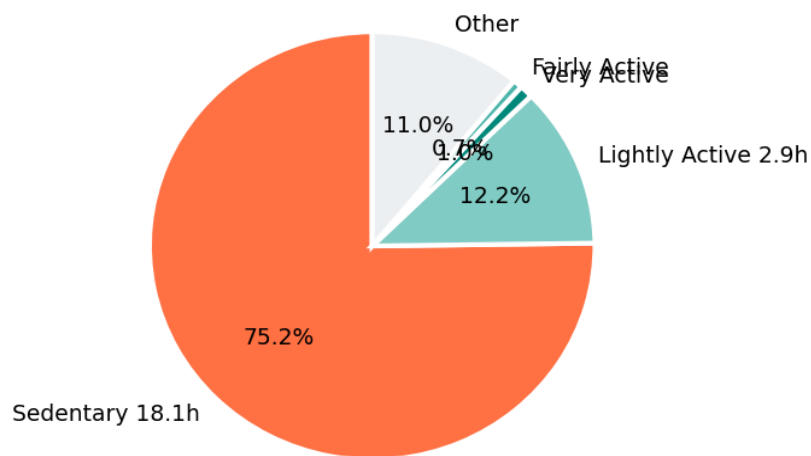

Key Insight: User 1644430081 burns the most calories (2,811) with only 7,283 steps - suggesting non-step activities like gym workouts. Bellabeat should market itself as a whole-body tracker beyond steps.

Section 4 - Sedentary Behaviour Analysis

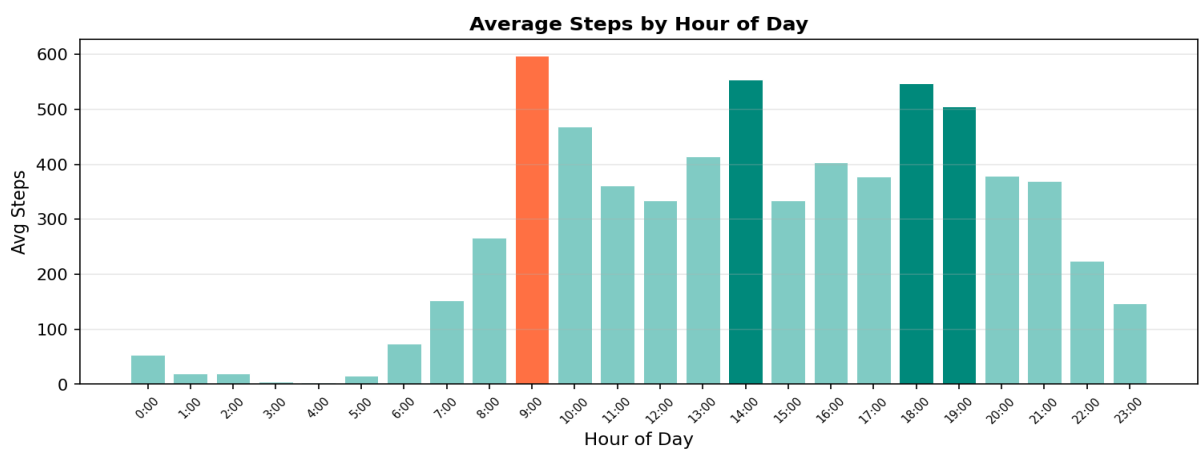

Activity Type	Avg Minutes	Avg Hours	% of Day
Sedentary	1,083	18.1 hrs	75.3%
Lightly Active	175	2.9 hrs	12.2%
Fairly Active	10	0.2 hrs	0.7%
Very Active	14	0.2 hrs	1.0%
Other/Sleep	~158	~2.6 hrs	~11%

Average Daily Activity Split

Key Insight: 84.5% of tracked time is sedentary. Users sit for 18 hours per day. Bellabeat should add smart stand-up reminders and sedentary streak alerts to its wearables.

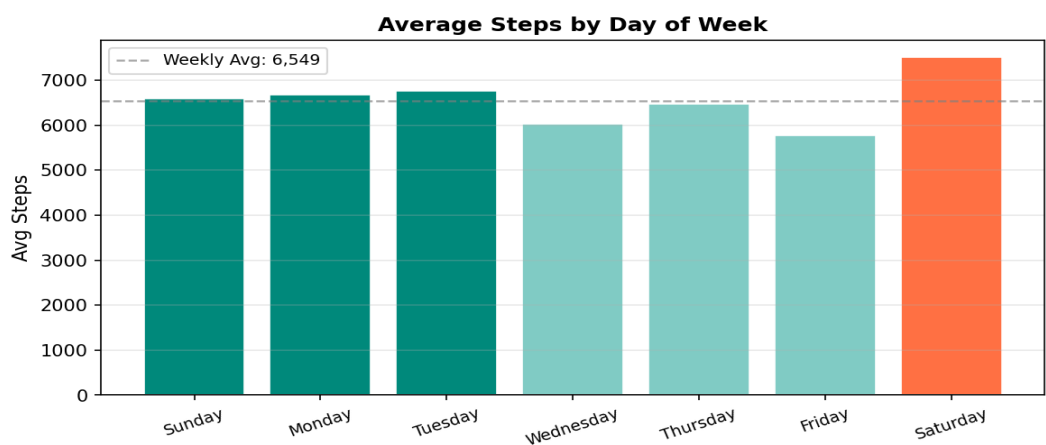

Section 5 - Time of Day Activity Patterns

Rank	Hour	Avg Steps
1st	9:00 AM	597
2nd	2:00 PM	554
3rd	6:00 PM	547
4th	7:00 PM	505
5th	10:00 AM	469

Key Insight: Peak activity is at 9am with a secondary peak at 6-7pm. Bellabeat should schedule workout reminders and push notifications around these natural activity windows.

Section 6 - Day of Week Analysis

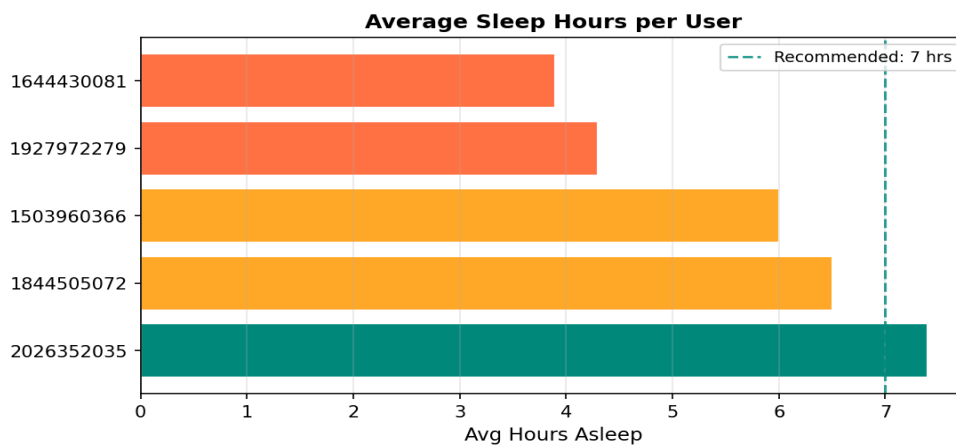

Day	Avg Steps	Avg Calories
Sunday	6,601	1,983
Monday	6,687	2,006
Tuesday	6,767	2,056
Wednesday	6,029	1,924
Thursday	6,475	1,934
Friday	5,779	1,995
Saturday	7,507	2,060

Key Insight: Saturday is most active (7,507 steps), Friday is least active (5,779). Bellabeat should run Friday motivational campaigns to build weekend momentum.

Section 7 - Sleep Analysis

Note: Sleep data available for 5 of 7 users only.

User ID	Avg Hours Asleep	Restless Mins	Sleep Quality
2026352035	7.4 hrs	25 min	Healthy Sleep
1844505072	6.5 hrs	125 min	Slightly Under
1503960366	6.0 hrs	20 min	Slightly Under
1927972279	4.3 hrs	12 min	Sleep Deprived
1644430081	3.9 hrs	15 min	Sleep Deprived

Key Insight: 4 out of 5 users sleep less than the recommended 7 hours, with 2 severely sleep deprived. Bellabeat's sleep tracking and bedtime reminder features should be a core marketing message.

Section 8 - Combined Insights: Activity + Sleep

User ID	Avg Steps	Calories	Sedentary Mins	Hrs Asleep	Level
1503960366	12,521	1,877	828	6.0 hrs	Very Active
2022484408	11,371	2,510	1,113	N/A	Very Active
1644430081	7,283	2,811	1,162	3.9 hrs	Lightly Active
1624580081	5,744	1,483	1,258	N/A	Lightly Active
2026352035	5,567	1,541	689	7.5 hrs	Lightly Active
1844505072	2,580	1,573	1,207	6.5 hrs	Sedentary
1927972279	916	2,173	1,317	4.7 hrs	Sedentary

Key Insight: Activity level and sleep quality don't strongly correlate. Even the most active user sleeps only 6 hours. Bellabeat should address activity and sleep as separate but equally important pillars in its marketing.

Marketing Recommendations for Bellabeat

#	Finding	Recommendation
1	71% users are lightly active or sedentary	Target this majority with step challenges, streak rewards and daily activity goals
2	Peak activity at 9am and 6-7pm	Schedule smart push notifications and workout suggestions around these windows
3	Users sit for 18 hours per day	Add hourly stand reminders and sedentary streak alerts to Bellabeat wearables
4	80% of users sleep under 7 hours	Promote sleep tracking features and bedtime reminders prominently in campaigns
5	Saturday most active, Friday least	Launch Friday motivational campaigns to build momentum into the weekend
6	Steps don't fully explain calories	Market Bellabeat as a whole-body tracker, not just a step counter
